

BL-AG

Bluetooth® 9V Irrigation Controller

The BL-AG is a waterproof, battery-powered Bluetooth irrigation controller able to schedule up to four valves independently. It is designed for agricultural professionals who wish to irrigate their fields easily and remotely via a smartphone.

Compatibility	
Distance to solenoid	30* m
Stations	1/2/4
Power	
Connectivity	 Bluetooth®
Control	On site (within 10m) 

**Wired distance between solenoid and product.*

INSTALLATION

Max. distance BL-AG / solenoid: 30 m
 Compatible with 9V latching solenoid
 Rain sensor connection
 Operating temperature: 0°C to 50°C

OPERATION

9V alkaline battery (6AM6 or 6LR61)
 100% waterproof (IP68-rated)
 Bluetooth® Smart 4.0 Low Energy
 Permanent programming save
 Internal clock back-up in case of power failure
 < 30s

DIMENSIONS

Width: 14 cm
 Height: 9 cm
 Depth: 5.5 cm

3-year
 WARRANTY

BL-AG

Bluetooth® 9V Irrigation Controller

Cycle / Soak

Optimize the quality of your irrigation by matching watering to your soil's needs: include pauses to allow the water to penetrate properly.

Open the valve boxes less often

Control your BL-AG via Bluetooth® from a distance of up to 10 metres or from above the valve box using the MySOLEM app.

Sturdy & 100% Waterproof

IP68 rated (water- and dust-resistant).

Water Consumption Monitoring

Connect a water meter to monitor your water consumption at short range (up to 10 meters).

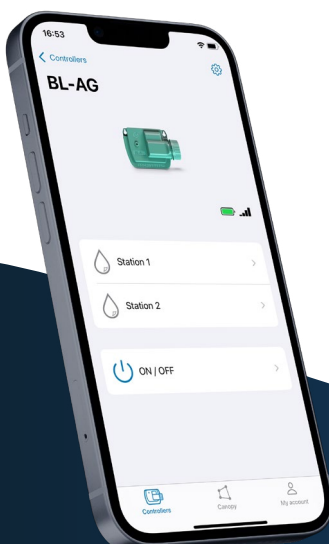

Simplified Maintenance

Low battery alert, permanent program backup.

Volumetric / Millimetric Programming

Use the MySOLEM platform to schedule your watering based on rainfall and water consumption data for precise irrigation.

Install. Program. It's ready.

For professionals, discover more features on our free platform, **MySOLEM.com**.
