CONNECTED IRRIGATION MADE EASY

URBAN IRRIGATION

[usa.solem-irrigation.com](http://usa.solem-irrigation.com)

2026 EDITION

Simplicity,  
Autonomy,  
For Greater  
Performance.

 **Green roofs**  
Water use optimization,  
energy savings, insulation

 **Trees in urban environments**  
Data on root system/ soil water tension/  
soil permeability, etc.

 **SOLEM 4G gateway  
for urban use**

 **City stadium**  
Easy maintenance & upkeep

 **Urban green spaces**  
Roundabouts, thoroughfares, etc.

 **Parks & gardens**  
Upkeep of green spaces

**Smart Urban Irrigation,  
Easy & Scalable**  
to meet the challenges facing towns & cities now and in the future.

 **Access to  
your installations  
wherever you are**

# Dedicated platform

for your town or city

**Customized** user permissions management

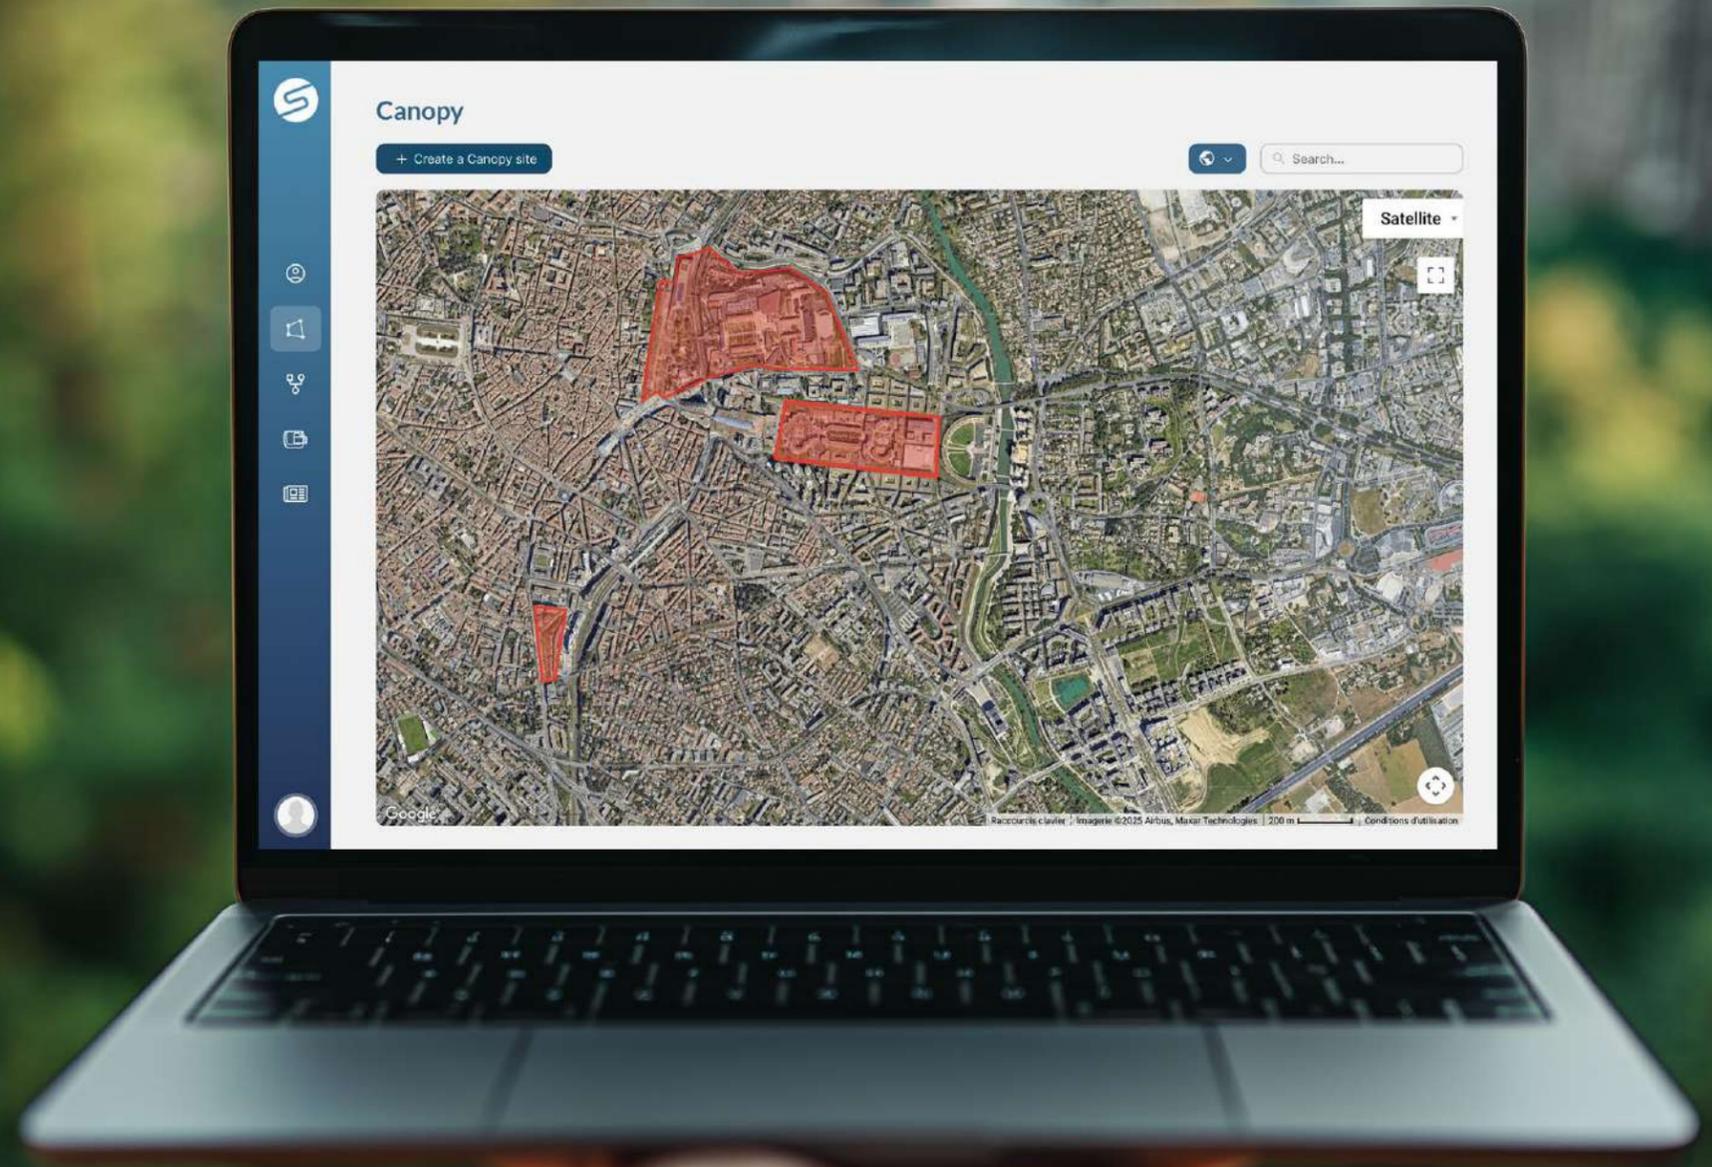

Transfer your data to your town/city's hypervisor using a **dedicated API**

Platform & application optimized to manage **large-scale installations**

**Access restricted solely** to municipal staff

# MySOLEM Canopy

## Large-scale irrigation

- 
**Geolocate** your irrigation modules
- 
**All your data at a glance** via your dashboard
- 
**Assess the impact and development** of your irrigation using the satellite view
- 
**Give full or partial access** to your staff depending on your sites
- 
**Real-time monitoring and access to data logs** for your irrigation
- 
**Check the effectiveness** of your irrigation via **supervision** of your water system

### **Mobile Canopy**

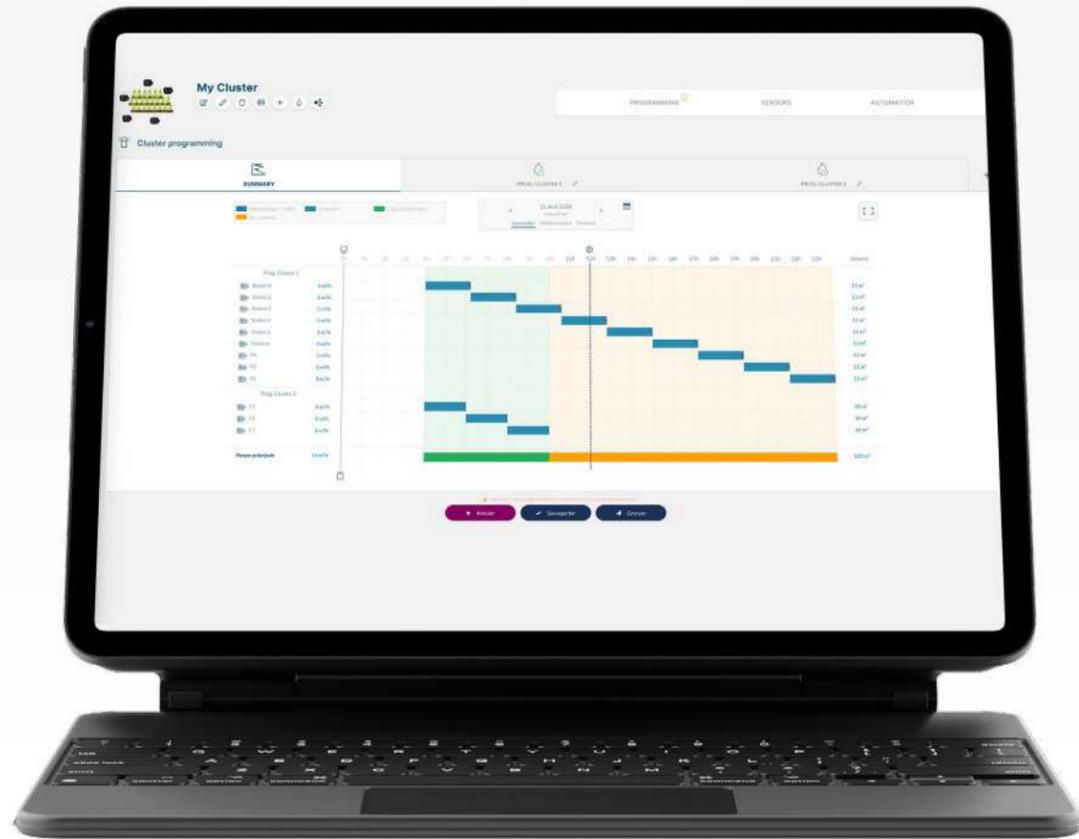

View your sites on the MySOLEM app, and work with your teams quickly and effortlessly.

SCAN HERE

CANOPY

# All Your Schedules In One Click

With MySOLEM Cluster Programming

**Schedule an unlimited number of stations** in just a few minutes

**Optimize your scheduling** according to your pump's capacity

**Organize and group** your stations together quickly

**View your theoretical daily water use**

**Automate and secure** your water system

# MySOLEM intelligence

Use sensors to automate system actions.

“A simple and effective interface”

**NEW**

**Data security**

Keep your modules and schedules secure via encrypted Bluetooth communications.

**Easy installation**

Install your product in a few minutes using close-range set-up: just move the phone nearby, and it's connected.

**Eco Mode**

Maximize the life of the 9V battery by switching on Eco Mode in winter and during the irrigation season.

# SUMMARY

## LoRa RANGE

### Gateways

- 20 LR-MB Indoor WiFi Gateway
- 21 LR-BST-REACT 4G Gateway

### Controllers

- 22 RELAY Pump Control Box
- 23 LR-PM Battery Operated, for Master Valve or Pump
- 25 LR-IS AC-Powered
- 26 LR-IP Battery Operated
- 27 LR-IP-ECO  Battery-Operated, with embedded Flowmeter, Solar Panel Option

### Smart sensors

- 30 LR-PR Battery Operated, Smart Pressure Sensor Module
- 32 LR-MS Battery-Operated Sensor Module
- 33 LR-MS-ECO  Battery-Operated Solar Sensor Module, Turbine Option
- 35 LR-MS-SDI12 Battery-Operated Sensor Module
- 36 Sensors Individual or in a Kit

## WiFi RANGE

- 42 SMART-IS AC-Powered Indoor Controller
- 43 VILLA AC-Powered Outdoor Controller with Display

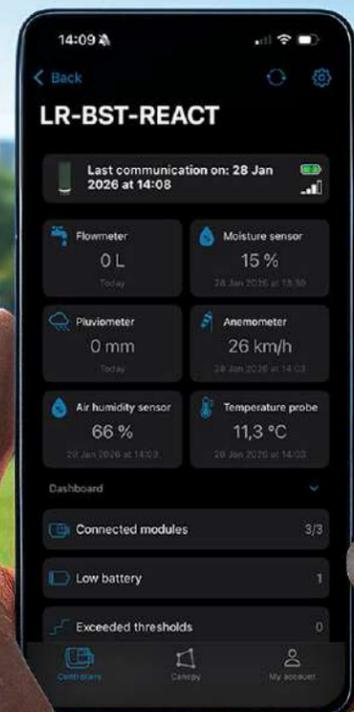

## Bluetooth RANGE

- 46 WooBee Battery-Operated Controller with Display 
- 47 BL-IP Battery-Operated Controller 

LORATM RANGE

# SOLEM LoRa™ Irrigation

Premium, Long Range, Long Life, Remotely

LORATM RANGE

INSTALLATION IN 3 EASY STEPS

1

## Download the free app

Install your products in a few minutes, set up your controls on-site or remotely.

2

## Connect your gateway

Install your Wi-Fi or 4G gateway to control your modules remotely.

3

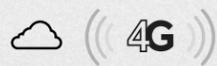

## Connect your modules to your gateway

Pair your controllers and sensor modules to your gateway in a few minutes. And you're all set.

# Reliable & wireless installation

Manage & automate your entire installation remotely.

0.5 mile radius\* : 25 modules

Schedule your irrigation with the help of weather data

Tie control of your valves to your sensors

Ensure that your valves are operating correctly

Keep your pump operations secure

LR-PR

LR-PR

0-232 PSI

0-232 PSI

Filtration

120V Relay

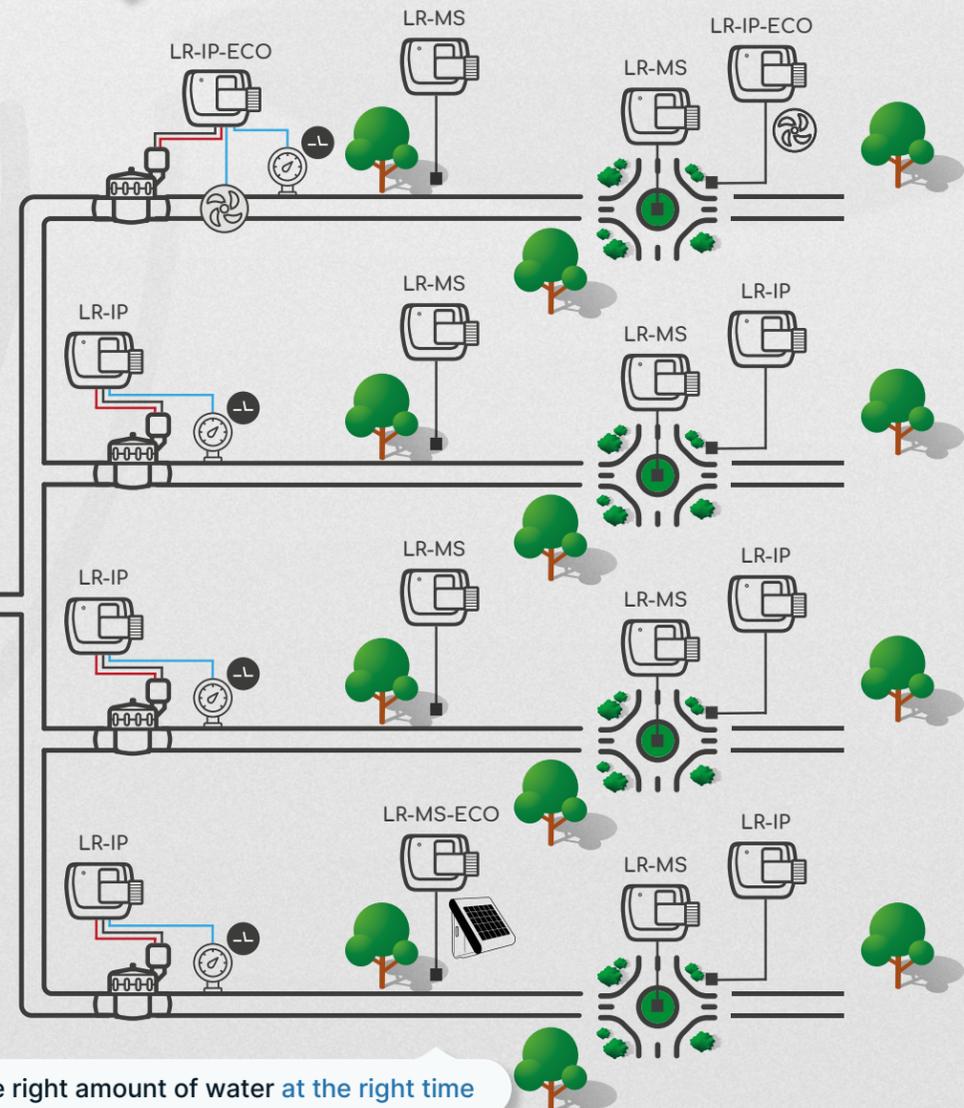

LR-PM

Monitor and log your water use

Receive notifications when leak risks occur

Automatically synchronize the scheduling of your master valve with that of your controllers

Deliver the right amount of water at the right time

# LR-MB

## WiFi Indoor Gateway

Control your modules remotely

The LR-MB is an AC-powered indoor gateway that connects directly to a Wi-Fi router. Depending on the version, it can remotely manage from 10 to 30 modules over LoRa™ radio. Send your schedules and settings easily, and receive notifications promptly, wherever you are.

Module distance	<b>0.5 mile radius*</b>	Connection	LoRa Bluetooth WiFi
Modules	<b>10/30</b>	Control	Remote*
		Power supply	120 V - 60 Hz

# LR-BST-REACT

## 4G Gateway

Control your modules remotely

The LR-BST-REACT is an outdoor 4G gateway that communicates through its SIM card. It is able to remotely manage up to 25 modules. It is ideal for isolated green spaces with no Wi-Fi. Plugged into the AC or fully self-sufficient when connected directly to a solar panel, it is ideal for spaces that have no power supply. Send your schedules and settings easily, and receive notifications promptly, wherever you are.

Module distance	<b>0.5 mile radius*</b>	Connection	4G LoRa Bluetooth
Modules	up to <b>25</b>	Control	Remote*
Fixation		Power supply	

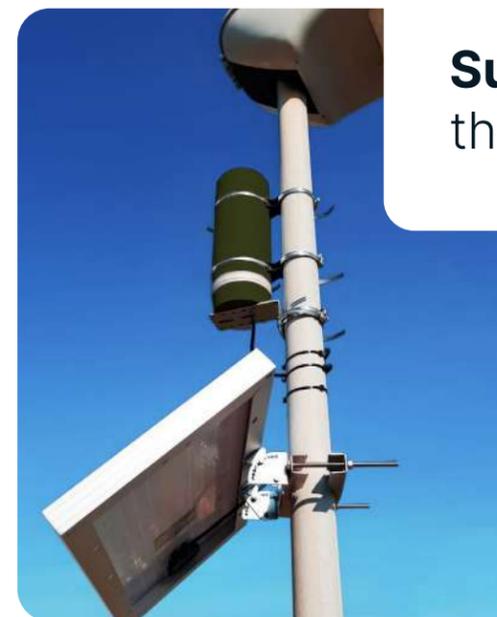

### Reliable, free connection using an existing Wi-Fi network

- Quick & easy to install
- Remote control
- Reliable connection<sup>1</sup>
- Extendable antenna

### Suitable for spaces that have no AC power

- Quick & easy to install
- Remote control
- Reliable connection
- Solar power possible
- Real-time connection<sup>1</sup>

\* Range up to 0.5 mile radius. Range varies depending on the installation configuration.  
<sup>1</sup>Real-time connection

\* Range up to 0.5 mile radius. Range varies depending on the installation configuration.  
<sup>1</sup>Synchronizes with server every 15 minutes

# Relay

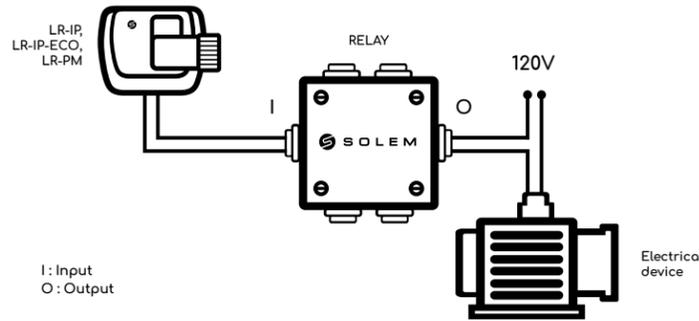

## Control Box for a Controller (Battery Operated)

Command relays are used to control all types of electrical device (e.g. a pump) from a 9V LoRa™ or Bluetooth® controller. The irrigation command from the controller activates the opening or closing of the control relay.

Compatibility	Any type of device (up to 120V)	Wired connection	
Input/Output	<b>1</b>	Max. length wired connection	For input <b>30</b> m

## Controlled remotely

Controlled remotely by means of a 9V LoRa™ and Bluetooth® controller (itself paired with an LR-MB-30 or LR-BST-REACT access point).

# LR-PM

## Control your master valve or pump automatically

The LR-PM is a waterproof, battery-operated Bluetooth® and LoRa™ irrigation controller, able to control a master valve or a pump. Paired with a Wi-Fi or 4G gateway, it automatically synchronizes all irrigation schedules for modules connected to the same water network (LR-IP and LR-IS compatible). View all of your schedules at a glance and optimize the pump flow rate based on the schedules for your valves.

Compatibility	 	Connection	 
Station	<b>1</b>	Control	Remote*   
Input: 1	 or  **	Power supply	 

## Keep your water system secure

-  IP68 rating
-  Manage your water use
-  Pump on-off control

-  p.10 Cluster Programming
-  p.9 Supervision
-  p.13 Eco Mode

\* Range up to 0.5 mile radius. Range varies depending on the installation configuration.  
\*\*Pressure Switch see p.39.

CONTROLLERS

# LR-IS

## Irrigation Controller

LoRa™, AC-Powered

The LR-IS is an AC-powered, Bluetooth® and LoRa™ irrigation controller able to sequentially schedule 24V solenoid valves. It is ideal for installations located in equipment rooms. Paired with a Wi-Fi or 4G gateway, it can be operated remotely from wherever you are.

Compatibility		Connection	 
Stations	<b>2/4/6/9/12</b>	Control	<b>Remote</b>   
Input: 2	 or  or 	Power supply	120 V - 60 Hz 

### Ideal to connect a 120V installation

-  Weather-based
-  Control over water use
-  Check the valve's status

p.10  
 Cluster Programming

p.9  
 Supervision

 Auto. Waterbudget

\* Range up to 0.5 mile radius. Range varies depending on the installation configuration.

3-YEAR WARRANTY

# LR-IP

## Irrigation Controller

LoRa™, Battery Operated

The LR-IP is a waterproof, battery-operated Bluetooth® and LoRa™ irrigation controller, able to sequentially schedule 9V solenoid valves. It is ideal for use with under-soil installations, as it eliminates the need to open manholes! Paired with a Wi-Fi or 4G gateway, it can be operated remotely from wherever you are. Linked to a water meter, it will monitor your water consumption, and send real-time notifications in the event of leaks or under- or over-delivery.

Compatibility		Connection	LoRa  Bluetooth  NFC
Stations	<b>1/2/4/6</b>	Control	Remote
Input: 1	or  or	Power supply	

p.10  
Cluster Programming

p.9  
Supervision

Auto. Waterbudget

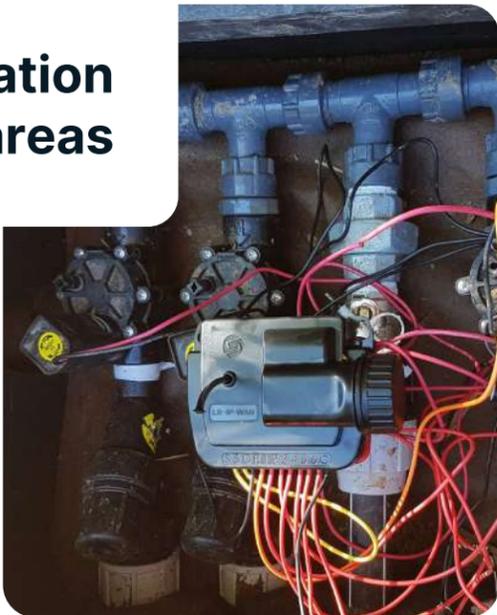

p.13  
Eco Mode

DOCUMENTS

## Ideal for irrigation of large areas

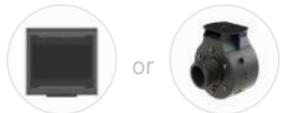

- Quick & easy to install
- Sturdy & waterproof
- Weather-based
- Control over water use
- Pressure detection

# LR-IP-ECO

## Irrigation Controller with embedded Flowmeter

LoRa™ - Solar Panel Option

The LR-IP-ECO is a waterproof, battery-powered Bluetooth® and LoRa™ irrigation controller, with the same features as the LR-IP. It has a built-in flow meter that measures your water use, checks your flow, and identifies leak risks. The turbine or solar panel recharge the module's built-in battery, tripling the lifespan of the 9V battery.

Compatibility		Connection	LoRa  Bluetooth
Station	<b>1/2/4/6</b>	Control	Remote
Input: 1	or	Power supply	or  +

p.10

DOCUMENTS

## Increases its battery life by using renewable energy

- Rechargeable battery
- Compact solution
- Flexible installation turbine or solar panel
- Weather-based
- Control over water use
- Pressure detection

# Connect All Your Sensors

Optimize the irrigation of your green spaces.

# LR-PR

## Smart Pressure Sensor

The LR-PR is a unit comprising a waterproof, Bluetooth®/LoRa™ data acquisition module equipped with its own pressure sensor. This pressure gauge kit uploads pressure measurements **between 0 and 232 psi** to the MySOLEM platform or app, so you can monitor the pressure of your installation. Once you have set the trigger thresholds, the MySOLEM platform will notify you when they've been exceeded, so you can protect your equipment.

Compatibility	Pressure sensor 	Connection	 
Input	<b>1</b>	Control	Remote*  
		Power supply	 

## Keeping your water system secure

- p.9  Supervision
- p.13  Eco Mode

-  Pressure control
-  Configurable notification thresholds
-  Data extraction options

# Pressure Switch

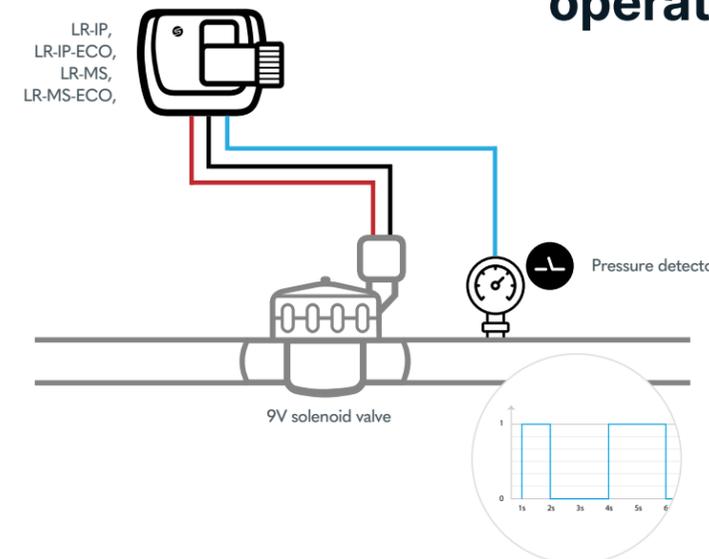

## Pressure Detector

The Pressure Switch is the perfect solution to ensure that your solenoid valves are operating correctly according to your controllers' settings. Ensure that your solenoid valves have been activated correctly and, if a fault occurs, receive a notification on your cell phone or by e-mail. It also helps save time analyzing technical issues affecting the water system.

Compatibility	Connexion
<ul style="list-style-type: none"> <li> VILLA</li> <li> SMART-IS</li> <li> LR-IP</li> <li> LR-IP-ECO</li> <li> LR-IS</li> <li> LR-MS</li> <li> LR-MS-ECO</li> </ul>	 Wired

## Check that valves are operating correctly

-  Check the valve's status
-  Notifications in the event of issues

# LR-MS

**Sensor Module**  
LoRa™, Battery Operated

The LR-MS is a waterproof, battery-operated, sensor data acquisition module. This module can connect to many types of sensor, including weather sensors (rain, air humidity, wind speed and temperature), water meters, soil moisture sensors, soil tensiometers, various level detectors, and more. Paired with a Wi-Fi or 4G gateway, you can access your data from wherever you are. You can view and extract your data from the MySOLEM.com platform, and even automate your irrigation based on thresholds that you set for each sensor.

Compatibility		Connection	
Sensor inputs	<b>1/4</b>	Control	<b>Remote*</b>
Sensor distance	<b>100 ft</b>	Power supply	

## Switch to precision irrigation

- Sturdy & waterproof
- Various sensors
- Configurable notification thresholds
- Data extraction options

p.9 Supervision

p.13 Eco Mode

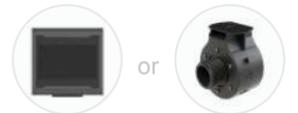

\* Range up to 0.5 mile radius. Range varies depending on the installation configuration.

# LR-MS-ECO

**Solar Sensor Module**  
LoRa™ - Turbine Option

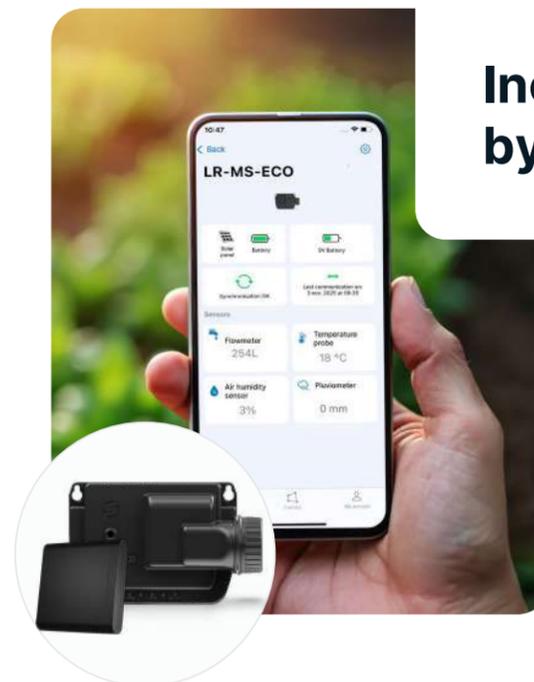

The LR-MS-ECO is a waterproof, battery-operated, LoRa™ sensor data acquisition module, with the same features as the LR-MS. It also incorporates a rechargeable battery powered by either a solar panel or a turbine installed on the water network to extend the life of the 9V battery. Paired with a Wi-Fi or 4G gateway, you can access your data from wherever you are.

Compatibility		Connection	
Sensor inputs	<b>1/4</b>	Control	<b>Remote*</b>
Sensor distance	<b>100 ft</b>	Power supply	or

## Increases its battery life by using renewable energy

# Moisture Sensors

Measure your soil's moisture at various depths

Optimize the amount of water supplied to your green spaces by using moisture sensors: maintain optimum soil moisture levels by measuring soil or substrate moisture content through the positioning of your sensors (individual or multiple), and deliver the right amount of water at the right time.

Accurately monitor your soil's moisture and temperature

## Which sensor module do you need?

SENSORS	SENSOR MODULES				
	LR-MS1	LR-MS4	LR-MS1 ECO	LR-MS4 ECO	LR-MS SDI12

# Level Sensor

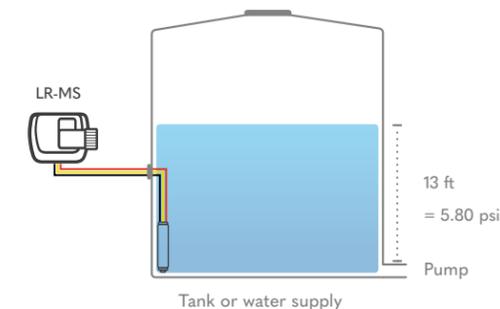

Measure the water level in your tanks

A level sensor can be used to measure all types of water storage. Paired with a sensor module, it will upload data and notify you when the upper and lower thresholds you have set are reached.

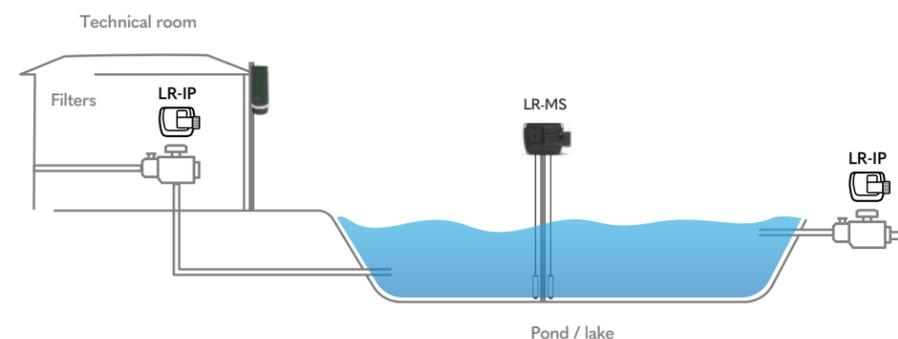

## Automated tank filling

Connect a LoRa™ controller to your pump to automate your tank filling.

## Automate your installation

WIFI RANGE

# Plug & Play WiFi Irrigation

# SMART-IS

## Indoor Controller

Wi-Fi, AC-Powered

The SMART-IS is an AC-powered, indoor, Bluetooth® irrigation controller that connects directly to a Wi-Fi router. It is able to sequentially control 24V solenoid valves. Paired to a water meter, it monitors your water and sends notifications in the event of leaks or under- or over-delivery.

Compatibility		Connection	WiFi Bluetooth®
Stations	2/4/6/9/12	Control	Remote
Input: 1	or  or	Power supply	120 V - 60 Hz

# VILLA

## Outdoor Controller

Wi-Fi, AC-Powered

The VILLA is an AC-powered, Bluetooth® irrigation controller, compatible with a Wi-Fi router. It has a large display, intuitive buttons, and a weatherproof protective cover. It is used to sequentially schedule 24V solenoid valves. Lever terminal blocks make it easy to install. Paired to a water meter, it monitors your water and sends notifications in the event of leaks or under- or over-delivery.

# High-quality products & services

SOLEM is committed to providing secure and effective services.

### Application & platform

Free of charge, available 24/7\* for remote management of all SOLEM products.

### Scalable system

Capacity to support an unlimited number of products.

### Data protection

Our servers are managed by SOLEM exclusively. SOLEM guarantees that your data is secured and will never be shared with third parties.

### Data backup

Backups every 6 hours to limit the risk of data loss.

### Technical support

Our experts are ready to listen to your needs and advise you about your watering plans.

### 3-year warranty

All SOLEM products (excluding accessories and spare parts) are guaranteed for 3 years.
