

NEW

LR-IP

9V LoRa™ Irrigation Controller

The LR-IP is a battery-powered, waterproof Bluetooth® and LoRa™ irrigation controller capable to program 9V solenoid valves sequentially. It is ideal for underground installations: no need to open manholes! It can be remotely controlled from anywhere when paired with a WiFi or 4G gateway. When connected to a water meter, it monitors your water consumption and allows you to receive real-time alerts in the event of under or overflow leaks. Enjoy extended battery life and effortless, fast installation with close-range connectivity.

Compatibility

Range to gateway **800*** m

Stations **1/2/4/6**

Power

Connection

Managed via

Remote

**Up to 800 m range. Coverage may vary depending on installation setup.*

INSTALLATION

Rain sensor or water meter with pulse sensor (max.499Hz) or pressure switch connection
Master valve connection
9V pulse solenoid connection
Max. distance LR-IP to solenoid: 30 m
Operating temperature: -20°C to 60°C

OPERATION

100% waterproof (rated IP68)
9V 6AM6 or 6LR61 alkaline battery
Bluetooth® Smart 4.0 Low Energy
Communication using LoRa™ radio signal
Communication using NFC
Internal clock back-up in case of power failure < 30s

DIMENSIONS

Width: 14 cm
Height: 9 cm
Depth: 5.5 cm

LR-IP NEW

9V LoRa™ Irrigation Controller

Up to a 5-Year Battery Life

Enable Eco Mode during winter and throughout the watering season to maximize 9V battery life.

Robust & Waterproof

IP68 rated: Waterproof and dustproof.

Simplified Installation

Install your product in minutes with close-range setup: bring your phone close and it connects instantly!

Advanced Features

From the MySOLEM platform: manage your sites effortlessly with Canopy, speed up programming with Cluster, and monitor hydraulic performance in real time with Supervision.

Remote Management

Long-range LoRa™ radio communication ensures a reliable connection between your LR-IP controller and our Wi-Fi or 4G gateways. Program your modules and access your data in real time via the MySOLEM app and platform.

Water Consumption Monitoring

Connect a water meter to detect leaks or abnormal consumption, and monitor your consumption in real time* via the MySOLEM app and platform.

Connected to the Weather

Irrigation times tied to the Water Budget automatically adjust according to weather forecasts and your set rainfall and drought parameters.

Install. Program. Automate.

**Depends on the installation setup.*
